Commenting on the performance, Mr. Amit Kaushik, CEO, Inflame Appliances Ltd said

"I am happy to share that the company has witnessed strong volume growth of 27% in H1FY26. Led by growing premiumisation in our product mix, revenue growth for the period stood at 42% YoY. We are on course to achieve revenue growth of +40–50% in FY26. Growth was driven by higher volumes from both Hyderabad and Panchkula units. This growth is further accentuated by an expanding customer base and growing demand. While other categories have also witnessed healthy traction, chimneys continue to be a major contributor to the revenue. Inflame continues to be the largest OEM/ODM manufacturer of kitchen appliances (especially Chimneys) in India, working with major brands. It has created a strong alternative to imports, thereby being a key part of the Government's 'Make in India' initiative.

We maintain our 40-50% revenue guidance for FY26 and FY27."
